

# Dynamic Tables in Snowflake for automated Change Data Capture

Conventional:  
Streams and Tasks

Updated: Dynamic  
Tables

```
CREATE DYNAMIC TABLE product (pre_tax_profit, taxes, after_tax_profit)
TARGET_LAG = '20 minutes'
WAREHOUSE = mywh
AS
SELECT revenue - cost, (revenue - cost) * tax_rate, (revenue - cost) * (1.0 - tax_rate)
FROM staging_table;
```
